ENERGY INNOVATIONS FOR A SUSTAINABLE WORLD

Suzhou, China, July 5-8, 2012

The ICAE has grown substantially after the successful conferences in Hong Kong (2009), Singapore (2010), and Italy (2011). The Fourth International Conference on Applied Energy (ICAE2012) will be held in the beautiful ancient city Suzhou, July 5-8, 2012. The ICAE2012 powered by the international journal, Applied Energy, seeks to showcase what is new and exciting in energy research and development that offer opportunities for translation into sustainable solutions. With *"Energy innovations for a sustainable world"* being the theme, major topics of the ICAE 2012 include renewable and green energy resources, advanced energy technologies, energy conservation in buildings, energy systems for power generation, environment and climate change.

CALL FOR PAPERS

Contributions are invited on the topics within the conference scope and also on other relevant areas. All contributions should be of high quality, original and not published elsewhere or submitted for publication during the review period. All papers will be reviewed and accepted for presentation orally or by poster. Further instructions on submissions can be found on conference website: www.applied-energy.org.

CALL FOR SPECIAL SESSIONS AND WORKSHOPS

Researchers who would like to organise one or more Special Sessions of about 5-6 papers, which they obtain from colleagues, on topics falling within the scope of the conference are invited to submit a proposal for consideration. Proposals are also invited for longer workshops or other activities related to the topics of the conference. Please contact info@applied-energy.org
